

ATLANTIC

FILTERED WATER DISPENSER

TRUST IN EVERY SIP

Scan to visit website

Features & Benefits

The **Trinken Atlantic Dispenser** is a floor-standing water purifier that provides a constant supply of quality filtered water, and is suitable for most office environments and reception areas.

Available in 3 temperatures

Dispenses piping hot (85-90°C), room temperature and cold water (6-10°C) instantly.

Protects users from scalding themselves

Comes with a hot water safety lock so you don't get scalded accidentally.

Purifies water using an advanced filtration system

Reduces sediment, chlorine taste and odour, and parasitic cysts.

Fuss-free filter change

Replacing the filter only requires a simple twist and turn, and there is only one filter to change yearly.

Easy to use

Touch-free paddles allow water to be dispensed right away without having to tap on multiple buttons.

Connects directly to water supply

Skip the hassle of water refills that are typically needed in traditional bottled water dispensers.

Save on storage space

No extra space required to store bulky refill bottles, unlike for bottled water dispensers.

Product Specifications

Model	Trinken Atlantic Dispenser (TRW-101)	
Dimensions	290mm (W) x 1155mm (H) x 485mm (D)	
Storage Tank Capacity	Hot Water	1 Litre
	Cold Water	3 Litres
Filter System Certification	NSF/ANSI Standard 42	Reduction of aesthetic contaminants, e.g. particulate, sediment, chlorine taste and odour
	NSF/ANSI Standard 53	Reduction of parasitic cysts
Micron Rating	0.5 micron	
Filtration Capacity	9,000 gallons (34,069 litres)	

The filtration system has been tested and certified by **NSF International*** to have met international quality standards for drinking water.

*As a global, independent organization, NSF facilitates the development of public health standards and certification programs that protect the world's food, water, consumer products and environment. The NSF mark is an assurance that certified products have been rigorously tested to comply with all standard requirements.

The product TRW-101 has been type-tested and considered to be in compliance with the safety requirements of the Standard (IEC 60335-2-15:2012 and IEC 60335-2-24:2010) and hence registered and entered into the Register of Registered Controlled Goods, (under pursuant to) the Consumer Protection (Safety Requirements) Regulations 2002. The registration is NOT an endorsement of the quality control system of the manufacturing process.
