

3M™ Sun Control
Window Films
**Color Stable
Series**

BENEFITS

- Significantly reduces the glare from blinding sunlight
- Good heat rejection which provides energy savings and enhanced comfort
- Extends the life of furnishings by rejecting 99% of harmful UV rays, the single largest component of fading
- Patented nano-carbon polyester technology allows the film to retain its integrity and never fade to purple
- Non-metallized window film lets you stay connected with mobile devices, GPS or satellite radio reception without interference
- Backed by premium 3M manufacturer's warranty. 5 years warranty for fixed and sliding panels, 3 years warranty for casement windows. Warranty covers peeling, bubbling, blistering, delamination and discolouration.

	CS5	CS20	CS35
Visible Light Transmitted	9%	19%	39%
UV Rejected	99%	99%	99%
Total Solar Energy Rejected	57%	51%	40%
Glare Reduction	90%	79%	56%
Visible Light Reflected (Exterior)	5%	5%	5%

*Performance data generated for a typical film on 6mm clear glass using applicable industry test methods and standards.

The Skin Cancer Foundation recommends many 3M Window Film products as effective UV Protectants.
