

# ALTAC Aluminium Matting System

The ideal matting system for your specific needs.

## DESCRIPTION

ALTAC Aluminium Mat is a rigid frame matting incorporated with 1" (width) INNER T Series carpet mat inserts which scrap, trap and hold dirt and soil for high traffic application. It is designed with flexible joints for easy roll-up and protected with sound dampening base.

## FEATURES

- ◆ 100% polypropylene fibre imported from Europe, with superior wear resistance and good absorption capacity.
- ◆ Able to scrap, trap and hold soil and dirt.
- ◆ Applicable to high traffic public areas.
- ◆ Can be customized to various sizes and shapes to fit building entrances.
- ◆ Easy to clean and maintain with Flexible Joint System.

## APPLICATIONS

- ◆ Entrances at commercial buildings, shopping malls, factories, hotels, airports, banks and country clubs etc.
